

Dial Zoom for Murder

SUNDAY AUGUST 23RD
3:00 - 4:30 PM PT

Some of your favorite Disney characters have found themselves together on the island of Te Fiti. Some were welcomed here by the island for a time of self-discovery and growth. Other's led here by chance. All should be well in such a paradise but a magical spell has been cast blocking everyone from leaving when the time came to return home. Personal items have gone missing. There is distrust and confusions among the visitors. A sure recipe for disaster. Can the characters work together and find a way to escape before tensions bubble over and they lose one of their number forever.

Game Play Structure

The characters have all been given the backstories on the slides below along with some objectives for game play and some personal items.

While characters are in breakout rooms, they will attempt to investigate the cause of the spell on the island and various means of escaping. During that time, the island of Te Fiti will let the audience know the secrets and desires of the characters and narrate the actions taken by each character.

You can watch and “play” along. Trying to guess which character eventually decides to protect their secret or master their objective at all costs...
